**DELIVERY INSPECTION**

- Visual Check of Implement  
 Installation of Attachments  
 Leakage of Hoses and Connections

**SAFE OPERATING INSTRUCTIONS**

- Operating Functions  
 Starting and Stopping Procedure

**TRAINING**

Prior to installing and using a tractor mounted implement, the Operator should have received sufficient instruction and training in the safe operation of the implement. This training should include (as a minimum) the following areas: –

- Information contained within the *Operators Manual*;
- Implement controls;
- Operating and safety features;
- Maintenance and service requirements;
- Meets ALL Government Certificates and Licensing requirements;
- Assessed as being able to read the English language and therefore able to read and understand the Safety Labels / Stickers and the *Operators Manual*; and
- PTO shaft first / initial fitting instructions as per detail supplied in *Operators Manual*.

In addition the Operator acknowledges that they have read and fully understand the Owners / Instruction Manual AND the Safety Warning labels / stickers for the tractor(s) or other machinery such as bulldozers or ATV's that the implement will be operating from.

**REMARKS** \_\_\_\_\_

Installed by (Owner / Dealer) Name: \_\_\_\_\_

Signature: \_\_\_\_\_

**PURCHASER**

I / we have received the machine in a satisfactory condition along with a copy of the *Operators Manual*. I / we have read the *Operators Manual* and have received operating and safety instructions. I / we fully understand all the safety aspects, care, maintenance and lubrication requirements of the equipment. I / we (purchaser) \_\_\_\_\_ further undertake to ensure that any additional Operators (including those borrowing or purchasing the above equipment) pass all aspects of the training requirements prior to installing and operating this equipment.
